1. General Information

1.1 Course overview

This course provides an in-depth analysis of current research on selected critical issues in development economics at the graduate level. The course covers topics on new directions of research in macro-economic and micro-economic aspects of development as well as methodological aspects of econometric analyses and policy evaluations.

Some familiarity with development issues (e.g., Development Economics I, II) as well as background in micro and macro theory and empirical economics is highly desirable. The course is open to Ph.D. students in economics, applied statistics, agricultural economics, and related disciplines, as well as advanced M.A. students in international economics and development economics.

1.2 Credit points

6 ECTS credit points

1.3 Examination and grading of the module

The grading consists of two components:

- Final exam (duration: 90 minutes) [5C]
- Oral presentations and discussions of other students' presentations [1C]

In order to earn ECTS credits, you must present and discuss research articles in the tutorial (selected from the literature under the tutorials section) and pass an exam at the end of the course.

- **Presentations.** Depending on the number of registered students, you have to present one or two papers and discuss one or two papers presented by your peers. Each presentation should be approx. 20 minutes. The grade of the presentation will be based on the presentation of
 - context and background
 - data
 - methodology
 - implications and conclusions
 - your own thoughts about the paper.

Students need to send their presentation to Sarah Langlotz and their assigned discussants at least 48h before the presentation time. You will have to upload the presentation to Stud.IP after the tutorial session in which you presented.

- **Online exam.** The exam takes place online from 16:00-17:30 on April 13th, 2023. We will upload exams from previous years to Stud.IP after the last lecture.

1.5 Registration

Please select three papers for possible presentations from the tutorial list (highlighted in grey) below and state your ordered preferences by email to sarah.langlotz@uni-goettingen.de by **February 14, 2023** (23:59). We will then assign 1-2 papers for your presentation, which we will announce by February 18, 2023.

Please register for the course on Stud.IP (<https://www.studip.uni-goettingen.de/>) so that you receive all pertinent information in due time (e.g., registration, virtual meetings). If you are not a student at the University of Göttingen and do not have access to Stud.IP, please email studip@uni-goettingen.de, and let them know that:

You are a guest student for the course Advanced Development Economics (course number: 800968) and will require access to Stud.IP from February to

May 2023. If they require permission from the course instructor, please forward the email to sarah.langlotz@uni-goettingen.de.

Students of the University of Göttingen need to register for the exam via FlexNow. All other students need to register for the exam by sending an e-mail to sarah.langlotz@uni-goettingen.de.

2. Course overview

2.1 Description of the teaching and learning methods

The lecture is supplemented by self-study based on provided materials and literature. The accompanying tutorial (*Übung*) complements the lecture content. The course is split in lectures and tutorials. **The course language is English.**

2.2 Meetings

IMPORTANT: This course is planned to take place **on campus**. This might change depending on how the coronavirus situation evolves. Please register for the course on Stud.IP so that you receive all pertinent information on possible changes in due time. All registered students will receive the Stud.IP course password by e-mail by February 18, 2023. This allows registered students to access the course materials and possibly receive a Zoom link.
